

OMAHA POLICE ROW
STILL UNSETTLEDTHE NEW COMMISSIONERS ARE
APPOINTED.

The Old Officers Refuse To Let Go, and Every Preparation Is Made for Serious Trouble—Special Police Sworn In and Militia Ready For a Quick Response.

Omaha, Neb., Aug. 3.—One hundred special policemen were sworn in last evening by order of Mayor Bemis. The emergency guard at the Central Police Station was strengthened. Patrolmen were stationed in the City Hall to resist any attack upon the Central Police alarm office and the offices of the old commission and chief of police.

The City Council met yesterday afternoon and openly defied an order of the District Court, issued by Judge Hopewell, restraining that body from approving the bonds of the new commissioners appointed in the morning. These are the chief features of the day's events in the religious war that is stirring the town from center to circumference.

In the morning the appointing board met at Lincoln and named the new police commissioners for Omaha. All are said to be members of the A. P. A. As soon as the appointments had been agreed upon Col. Russell drew up and signed their commissions. The meeting of the appointing board was not adjourned until a full hour had elapsed, it being kept open in order that the governor might attend if he chose, but he did not appear.

The governor has requested the attorney-general to commence at once upon warrant proceedings to settle the dispute as to the rights of the two boards. The attorney-general in reply said in effect that whenever it became apparent that it was necessary to take such steps and the condition of affairs called for it and the law permitted it, he would promptly proceed to his duty.

The City Council met in special session and approved the bonds of the new commissioners. There are now two police boards claiming to be legally constituted and to have the authority to organize and control the police force of this city. The new commissioners made no demands for possession of the offices, thus averting a clash that seemed inevitable early in the evening. The old board is determined to hold on to the offices to which Gov. Holcomb appointed them in May. In event of trouble arising, which now seems certain, the specials will be armed with pick-handles and be equally divided and placed at the city jail and city hall to resist any attack.

The doors of the fire and police telegraph department are barricaded with 2 by 4 scantling, and in the rooms are ten officers under Sergt. Cook, who will remain on duty there until the trouble is settled. In the office of the chief of police are six men under Capt. Mostyn. At the central station are 150 men under Sergt. Ormsby in readiness for any outbreak. During the early part of the night there congregated about the city jail a crowd of several hundred persons, members of both factions. There were no efforts to do violence and no inflammatory talk. When asked by the police to move away from the building they did so.

Chief of Police White said: "I am satisfied, that there will be no rioting or bloodshed and believe that the differences will be settled in the Supreme court without any serious trouble."

A. C. Foster said: "Myself and the other two members of the new board will hold secret informal meetings for several days to determine our position in the present matter and to find out as to the legality of our appointment before making our appointments on the police and fire departments. We will do nothing definite before the first of next week."

Late last night the new police board was enjoined from assuming the functions of office. Judge Hopewell issued the order and set the hearing for this afternoon. The order restrains the members of the new board from attempting to take possession of the offices, books, records, etc. of the police department or in any way interfering with the old board, the chief of police and his subordinates in the performance of duty.

The three police commissioners, acting under the A. P. A. police law, did business in Omaha last night, regardless of the fact that the District court restrained the city council from approving their bonds.

Several companies of militia in different parts of the state have been notified to be in readiness to move to Omaha in the event of trouble. Gov. Holcomb is prepared to maintain the law, and is using all means in his power to have the whole squabble carried to the Supreme court.

DEATH IN A SCOTCH MINE.

Fourteen Men Entombed—Sixty Rescued Alive with Great Difficulty.

Glasgow, Aug. 3.—The Auchan Harvie colliery at Salt Coats, on the Bay of Ayr, twenty-four miles south-west of here, has been flooded. Sixty men have been rescued and fourteen are entombed in the mine, and it is believed that they have perished. Searching parties have been formed, but are unable to penetrate to the point where the unfortunate victims are. There is a scene of intense excitement at the pit's mouth, where the wives, mothers and families of the entombed miners are wringing their hands and giving all sorts of manifestations of grief and despair. Those who were rescued arrived at the surface in a most exhausted condition and many were resuscitated only with the greatest labor.

Mrs. Corbett Granted Her Divorce.

New York, Aug. 3.—Judge Gilder-sleeve has approved the referee's finding in the Corbett divorce case. This gives Mrs. Corbett an absolute decree, with the right to resume her maiden name, Ollie Lake. She is to receive \$5,200 a year alimony, payable semi-annually.

R. G. DUN'S WEEKLY TRADE REVIEW

Heavy Corn Crop Is the Prospect—The Week's Failures.

New York, Aug. 3.—R. G. Dun & Co.'s Weekly Review of Trade says: "There is a perceptible halt which may develop if attributed to wrong causes. Trade two months late in spring pushed forward into July a large share of business belonging to April or to May. Seeing a rush of orders out of time, many imagined it would continue and hurried to give other orders. The jam of two months' business into one lifted prices. Then other orders came to anticipate a further rise, but the mid-summer halt was inevitable, and it is yet somewhat uncertain how much improvement will appear after."

The corn crop promises to be the largest ever grown, and is almost out of harm's way. The crop of wheat appears, from later accounts, perhaps 20,000,000 bushels less than was expected a month ago, and had the best hopes been realized it would have been more than 100,000,000 bushels short of a full crop.

"The general advance in many products also causes reluctance to purchase, and the distribution of the past half year has been in part to make up for stocks and individual supplies depleted during the two years of economy. On the other hand, there has been an enormous increase in the working force and a considerable increase in wages paid, which enables people to buy more freely. Strikes of some importance appear, but do not yet threaten to last long, though a strike of coal miners for a time affect business somewhat extensively."

"For the first time since the rise in prices of iron products began there have been some concessions to retain business and efforts of new works to get orders tend to check the advance. In spite of this, the general average of prices is a shade higher. Finished products are generally strong, with more demand than can at present be met for plates and for bar."

"Business in cotton goods has been the largest in July for several years, reckoning deliveries, but not large as to new orders. A further advance of 1/4 cents per yard has been made on a moderate demand for some bleached and brown goods, and prices are firm for sheets and drills, while colored cottons are quiet, with occasional advances. Sales of wool have been only 6,072,450 pounds for the week, against 9,336,400 in 1892."

"Wheat suddenly rose 3 cents on bad reports of condition, but has dropped all the gain as the scantiness of exports is felt, shipments in July having been only 3,495,064 bushels, flour included, from Atlantic ports, against 9,865,633 last year. Western receipts continue very small, and farmers appear to be holding for higher prices. Corn is a shade stronger, although the reports are decidedly favorable."

"Heavy sales of coal are reported at prices at least 70 cents below the circular, and the market is much demoralized, with fear of auction sales."

"Failures for the week have been 261 in the United States, against 230 last year, and twenty-eight in Canada, against forty-four last year."

DULUTH TO TAX FRANCHISES.

Corporations to Make a Bitter Fight Against Assessment.

Duluth, Minn., Aug. 3.—For the first time in the history of this city franchises are to be assessed this year, and there is much alarm among the holders of them in consequence. The county Board of Equalization will instruct the city assessor to make a return at once upon all the franchises which have been given away in the past by the city. The board will then proceed to assess their valuation. On the supposition that the franchises will be assessed at \$1,000,000, which is far below their real value, the city, county and state will get over \$25,000, but not without a hard fight, as the companies have been let alone so long that they are of the opinion that the law will not hold water.

Illinois Board of Arbitrators Named.

Springfield, Ill., Aug. 3.—Gov. Altgeld has selected three men for the State Board of Arbitration. He named Judge Anthony Thornton, of Shelby county, W. P. Rend, of Chicago, and Charles J. Riefler, of Sangamon. The appointments are regarded as fair. They answer the requirements of the bill. Riefler is a workman, Rend is an employer of labor—one of the largest in the country and there isn't much about the law that Anthony Thornton does not know. These appointments were confirmed by unanimous vote.

Arthur Duestrow Defense.

Union, Mo., Aug. 3.—At the trial of Arthur Duestrow, the St. Louis wife and child murderer, a number of witnesses for the defense were examined yesterday. Their testimony shows that they considered him insane. Many of his alleged strange acts were told of. The state will introduce witnesses in rebuttal to refute the claims of insanity made by the defense.

Stillwell Under Investigation.

Hannibal, Mo., Aug. 3.—The grand jury resumed the investigation of the Stillwell murder case yesterday. Five witnesses were examined, but it is believed now that nothing new was learned, as all of the witnesses with one exception have been examined by previous grand juries. Dr. Hearne and wife will remain here until the grand jury makes its report on Aug. 17.

Sheldon Injunction Postponed.

Pierre, S. D., Aug. 3.—The injunction case against Governor Sheldon has been postponed until the injunction against Regent Shannon is decided in the Supreme court. This case virtually settles the question in controversy whether or not the governor has the right of removal.

Stambuloff's Friend Stricken.

Berlin, Aug. 3.—A telegram from Sofia received here states that M. Matakief, an intimate friend of the late M. Stambuloff, and leader of the Liberal party at Tatar Basarjik, Eastern Roumelia, has been attacked by assassins and fatally wounded.

FIRE ON AN ISLAND
MEAR MARINETTEGRAVE FEARS FOR THE SAFETY
OF INHABITANTS.

Calamity Has Overtaken Beaver Island, an Historic Spot in Michigan—Much Timber and Logs Threatened by Flames—Forest Burning Near Peshtigo—Blaze at Houghton

Marinette, Wis., Aug. 3.—Captain Young of the steamer Cuba, which arrived here yesterday reports that Beaver Island is all afire. Flames were devastating it Thursday night and much anxiety is felt for the small settlement on it. The island is populated by a colony of about 1,500 persons, engaged in farming and fishing. Captain Young says the whole island has been laid waste and that the inhabitants are homeless and without food. The island occupies a prominent place in the history of this part of the country, it having been in the early fifties the home of "King" Strang, a Mormon, who had many fights and was finally killed and his band of followers scattered. Beaver Island is on the lower end of Lake Michigan, near the Straits of Mackinaw and is about fifty miles from the mainland. There are two settlements on the main island, known as St. James and Gillette. Chicago, Aug. 3.—A telegram to the Chicago Inter Ocean says: The probability is that 100 residents of Beaver island, located in Green Bay, at the entrance of the Straits of Mackinaw, have been burned to death in the forest fires, which have desolated the entire island during the last few days. The island is fifty miles away from the mainland and it is not believed that aid could have been secured in time to save life and property.

Peshtigo, Wis., Aug. 3.—Forest fires have again made their appearance in Marinette county. At present they are confined to the territory lying between Ellis junction and Marinette, adjacent to the Chicago, Milwaukee and St. Paul track, but fears are entertained of a more widely spread calamity, as vegetation is as dry as tinder, owing to the continued drought of the past two months. Even marshes, many of them covered with stacks of hay, are in danger. One farmer lost ten tons of hay and many others are fighting fire in order to save what they have cut.

MUCH LOSS THREATENED.

Timber and Logs Doomed to Destruction in Michigan.

Houghton, Mich., Aug. 3.—Bush fires are burning all through the heavily wooded portion of the upper peninsula. So far little damage has been done, except in Delta and Schoolcraft counties, but exceedingly dry weather favors a spread of fires and high winds would be the signal for a sweep of flames through the forest in many different places. In addition to the danger to standing timber, some 250,000,000 feet of logs cut last winter could not be driven down the stream to the mills this spring and are in considerable danger unless rain falls at once. The Diamond Match company has 80,000,000 feet of logs hung up on Ontonagon river alone.

QUINLAN TELLS ALL.

Suspect in Holmes' Case Makes a Confession to Chief Badenoch.

Chicago, Aug. 3.—Pat Quinlan has confessed. A promise of immunity was given him. That what he told the police yesterday fixes at least one murder on Holmes there seems to be no doubt, and while the evidence involves Quinlan, it is probable that he will be used as a state's witness should Holmes ever be brought to Chicago for trial. The confession made by Quinlan gives the police authorities the first legal proof of the murder of the Williams sisters, Emeline Cigrand, the Conner woman, and possibly others. The revelations made by both Quinlan and his wife were, it is admitted, of a startling character, and, coming at a time when even Chief Badenoch had given up hope of directly proving Holmes guilty of any of the many murders charged against him, they caused considerable commotion among the officials directly connected with the investigations.

CANADA SCHOOL TROUBLE.

Startling Rumor in Winnipeg—May Remove Manitoba Officials.

Winnipeg, Man., Aug. 3.—Sir John Schultze, governor of Manitoba, has transmitted to Premier Greenway a communication from the dominion government, asking Greenway to state just how far he will go in compromising the Catholic school difficulty. In Winnipeg the startling rumor was circulated that if Premier Greenway persists in his refusal to remedy the Catholic grievances he and his ministers will be dismissed from office by the Manitoba governor. The governor has the power to do this, but such a high-handed course would be calculated only to intensify the trouble and bitterness. Certain it is, however, that the dominion government is contemplating some decisive move.

Reject All Talk of Compromise.

Ishpeming, Mich., Aug. 3.—The Ishpeming and Negaunee strikers held a big demonstration in Ishpeming yesterday. Some of the speakers made an effort to induce the men to visit the mines to ascertain what concessions the companies are prepared to make, but the matter was voted down. The men will not listen to compromise talk, and those who attempt to speak of effecting a settlement in that way are given but little encouragement. The companies will all have paid off their men in full this week, and are preparing for an indefinite shut-down of their works.

Kansas Corn Saved.

Kansas City, Mo., Aug. 3.—The entire central belt of Kansas, where corn was beginning to suffer from the heat and dry weather, was visited by a heavy rain Thursday night and yesterday, which practically secures the good crop of corn that Kansas has started out to raise this year.

CRASH ON THE RAIL
NEAR ZANESVILLE, O.A FREIGHT AND PASSENGER
TRAINS COME TOGETHER.

One Engineer Was Killed and a Fireman Fatally Injured by the Wreck—One Tramp Killed and Eight Others Injured in a Smash-Up Near Canton.

Zanesville, O., Aug. 3.—An east bound express on the Baltimore & Ohio road, collided with a freight train on Norwich hill, at 2 o'clock this morning. One engineer was killed and the fireman fatally injured.

Canton, O., Aug. 3.—Stark siding, two miles east of here on the Fort Wayne, was the scene of a disastrous freight wreck at 2:30 o'clock yesterday, in which three men lost their lives and nine more are lying in Aultman hospital, in this city, more or less injured. The train, which was an extra going west, broke in two at the summit and the rear section ran into the front section. Eight cars were smashed into kindling wood and traffic was delayed about two hours. The dead:

TOM COLLINS.
The injured:
William McCoy, Pittsburg.
Michael Moran, 434 Merchant avenue, Cleveland.

Richard Reed, Denver.
Adolph Soder, New York.
John Luzen, Chicago.
Charles Eckert, Philadelphia.
S. Richardson, Mason City, Mo.
Louis Simpson, Pittsburg.
These men were all tramps riding in a box car. The train men escaped without injury.

WHITES AND BLACKS BATTLE.

Search for a Negro Fiend May Result in a Race War in Georgia.

Atlanta, Ga., Aug. 3.—A pitched battle took place about two miles east of this city last night. The opposing forces were a posse of white men on one side and on the other five or six negroes. Saturday night Jesse Hardeman, a negro farm hand, 25 years of age, attempted to assault in a most brutal manner the wife of J. R. Robinson, who lives two miles from Marietta. The cries of the woman brought her husband to the house, but before she could acquaint him with the negro's purpose the fiend had escaped. A posse was immediately organized. They met a party of negroes, who fired on them. The white men returned the fire until some hundred shots had been exchanged. None of the negroes have been found, although Sheriff Davenport, of Cobb county has organized a very large posse and is scouring the surrounding country. A great uprising of the negroes is imminent and nearly every one, white and colored, is armed.

THE LAST SESSION.

Illinois Legislators Finish Their Business and Adjourn Sine Die.

Springfield, Ill., Aug. 3.—After the reading of the journal in the house yesterday Mr. Lyman offered a protest in behalf of the minority members against a sine die adjournment, as brought about in the manner it was Thursday. The protest was ordered entered in the journal. Mr. Berry called up the tax levy bill, which passed with three Republican votes against it. A joint resolution was adopted by the house by a strict party vote declaring that the general assembly does not deem it necessary or proper at this time to enact any legislation upon the majority of the topics mentioned in the governor's proclamation calling the extra session. Mr. Bryan offered a resolution, which was adopted, providing for the appointment of a committee of nine to investigate the question of child labor and report to the next session of the legislature. The house soon after adjourned.

In the senate a message was received from the house announcing the passage of the senate's tax levy bill. The house bill to repeal the libel law was defeated by a vote of yeas 13, nays, 26. On motion of Senator Berry, the senate then went into executive session to confirm the governor's appointments on the arbitration bill. On motion of Mr. Litter, the arbitrators named were duly confirmed by unanimous vote. At 11:20 on motion of Senator Morrison, the senate adjourned sine die.

Killed for Stealing Fruit.

Washington, Aug. 3.—Miss Elizabeth Flagler, daughter of Gen. Flagler, Chief of Ordnance of the Army, shot and killed a 14-year-old negro boy named Ernest Green yesterday at her home in the suburbs of the city. The boy was stealing fruit. Miss Flagler went to police headquarters and gave herself into custody. The coroner's jury exonerated her and she was released.

Crops in Nebraska.

Washington, Aug. 3.—Secretary Morton has received a telegram from an Omaha railroad official, well acquainted with the situation, stating that corn has been damaged from 20 to 50 per cent in parts of Southeast Nebraska. Despite this damage, the telegram predicts that with favorable weather there will be as large a crop as ever was produced in the state.

Indiana Corn Injured.

Wabash, Ind., Aug. 3.—Summer frosts are a rarity in this part of Indiana, but Wabash county has the distinction of having had one. Seven acres of growing corn was cut on the H. H. Conner place, seven miles from the city and on the Mississippi bottom, south of here. Potatoes and corn were damaged, vegetation generally, however, escaped serious damage.

Big Genoa Bank Closes.

New York, Aug. 3.—A cablegram reports the failure of Birgen Bros., bankers of Genoa. The failure, which is attributed to heavy bear operations in Italian rentes, is said to be an important one.

CORNELL'S CREW ARRIVES HOME

They Attribute Their Defeat to the Climatic Conditions.

New York, Aug. 3.—The Cornell crew arrived here this morning from Southampton. They attribute their defeat to the climatic conditions.

MRS. T. DE WITT TALMAGE DYING

Cannot Long Survive as She Is Gradually Losing Strength.

Deville, N. Y., Aug. 3.—Mrs. T. DeWitt Talmage is sinking rapidly and cannot last long.

INDIAN SCARE OVER.

Reliable Information That the Bannocks Are on the Way Home.

Omaha, Neb., Aug. 3.—A dispatch received at the headquarters of the department of the Platte indicated that the Indians were returning from Jackson's Hole by a straight line to the reservation. To test the correctness, the Union Pacific office was asked to telegraph for information from stations along the Oregon Short Line from Soda Springs westward. The following reply is from the division superintendent at Pocatello: "A stage driver who has just reached Soda Springs says he left Carraboo this morning. He came through the Prays Lake and Blackfoot River country. He reports 200 Bannocks at Grave Lake, on the way from Jackson's Hole to the reservation. They said that there had been no fighting, and no desire to fight on their part. The scare seems to be over, and settlers understand they are trying to make their way back to the reservation to avoid troops. Information thoroughly reliable."

TAYLOR BROTHERS CONVICTED.

Found Guilty of the Butchery of the Meeks Family.

Carrollton, Mo., Aug. 3.—"We, the jury, and the defendants, William P. and George Taylor, guilty of murder in the first degree." Such was the verdict rendered yesterday in the notorious Meeks murder trial. It took only one ballot to decide that the Taylor brothers were guilty of the heinous crime charged against them, and that the penalty for the butchery of Meeks, his wife and two children on Jenkins hill the night of May 10 last should be set at the limit. The defense will file a motion for a new trial, but it is not believed that it will be granted.

SLAUGHTER OF CHRISTIANS.

Report of a Massacre at Ku Cheng—Women Among the Slain.

Shanghai, Aug. 3.—Advices from Foochow are that a telegram received there August 3d says that a fearful massacre Cheng. Five foreign ladies are amongst the murdered.

Counterfeiters in Indiana.

Crown Point, Ind., Aug. 3.—During the last few days Sheriff Benjamin Hayes has made an important discovery by locating a gang of counterfeiters in this county. The party, as far as can be learned, consists of three men, all residents of this county, two residing near Hammond and the third near Roby. The gang has been successful in passing several hundred dollars of their spurious coin in the past week. Experts say the counterfeit dollar is the finest ever made and could not be told only for their weight, as they are some lighter than the good coin. It is thought that about 2,500 of the dollars have been disposed of.

Editor Horsewhipped by a Woman.

St. Joseph, Mo., Aug. 3.—E. V. Williams, editor of the Stanberry Herald, and F. A. Welmer, editor of the Stanberry Sentinel, have been indulging in a newspaper quarrel. Yesterday, in consequence of an article Williams published, which she considered reflected on her, Mrs. Welmer, accompanied by her husband, went to the Herald office and horsewhipped Williams, while Welmer struck his rival over the head with a revolver.

Texas Fever in Kansas.

Topeka, Kan., Aug. 3.—Yesterday the State Sanitary Board was summoned to Ottawa to inspect a bunch of diseased cattle upon the farm of J. C. Welch, four miles from the city. The board found that out of thirty-four head, four died and that a number were sick. After a thorough examination the board pronounced the disease to be Texas fever and placed the farm under rigid quarantine.

Defense in Durrant Case.

San Francisco, Cal., Aug. 3.—It is said that the counsel for Theodore Durrant, charged with the Emanuel church murders, will attempt to prove an alibi by the testimony of members of his family and friends, but it has not been determined as yet whether to put the defendant on the stand or not. It is thought the best defense experts is a disagreement of the jury.

Expect No Trouble with Russia.

Washington, Aug. 3.—Minister Juri-nio and Secretary Matsui of the Japanese legation are back from an extensive summer tour through Canada. The official advices coming to the legation at present are meager, as the close of the war has restored quiet in Japan and there are no evidences that Japanese officials in Tokio expect trouble with Russia.

Hitch in the McClelland Case.

Centralla, Ill., Aug. 3.—On account of a flaw in the indictment as returned by the grand jury both John A. McClelland and Wesley Tabor have been released. They were charged with the murder of Alexander and Oscar McClelland. The grand jury has adjourned and there is no way to correct the indictment until the next sitting.

Ingalls for Free Silver.

Caldwell, Kan., Aug. 5.—John J. Ingalls addressed about 1,500 people yesterday at the Chickasaw Veteran association. After paying tribute to the old soldiers and the cause they represented he closed by declaring in favor of the free coinage of silver.

BAD INDIAN IS SHOT
DURING A FIGHTDRUNKEN QUARREL
NEAR VIROQUA

White Deer, a Lawless Red Man Who Had Just Been Discharged From Waupun, Killed by Another Young Brave, Who Was Arrested Soon After—Silver Talk at Monona.

Viroqua, Aug. 3.—During a drunken quarrel at an Indian camp, near here, last night, Charley White Deer was shot and killed by George Smith, a young Indian, who was later arrested and jailed here. White Deer was an outlaw and had just finished a two years' term in Waupun.

Horror and Bryan Talk Silver.

Madison, Wis., Aug. 3.—The Hon. Roswell G. Horr debated the silver question here yesterday with William J. Bryan of Nebraska. The speakers both came prepared for work, each wearing an alpaca coat. Mr. Bryan opened and closed the debate, taking his place squarely on the plank of free and unlimited coinage of silver at a ratio of 16 to 1 by the United States, unaided by any other nations.

IS A BIG VICTORY.

Miners and Operators of Pittsburgh Reach an Important Agreement.

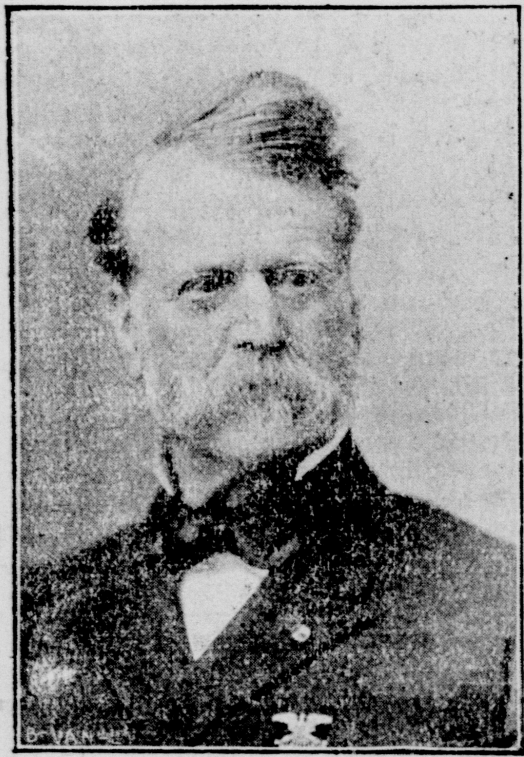

Pittsburg, Pa., Aug. 3.—The biggest victory ever made here by organized labor has been won by the miners. Almost every demand was granted, and the operators gave a written guarantee for the fulfillment of the contract. The terms are that the present rate of wages shall continue until October 1, when every operator in the Pittsburgh district will pay the 69-cent rate, with a differential of 5 cents in favor of operators who do not have company stores. The agreement further provides for another advance on January 1. It is understood that the rate will be made 79 cents. The effect of this settlement is to advance the mining rate in Ohio and Indiana from 51 cents to 60 cents. It also helps the rate in Illinois and brings the strike there to an end. It also changes the end of the scale year from April 30 to January 1. This is the first time a differential has ever been granted against company stores, and it is expected

DR. WHITING NAMED FOR A HIGH POST

WISCONSIN G. A. R. TO BACK
HIM IN LOUISVILLE.

Janesville Physician is Their Choice
for National Medical Director—
Kindly Words Penned by Editor
Watrous, of the Milwaukee Tele-
graph, in This Connection.

The fact that Dr. J. B. Whiting was unanimously re-elected medical director for the department of Wisconsin, and with equal unanimity the department decided to present his name at the Louisville National Encampment for national medical director, warrants the Milwaukee Tele-

graph in making the following special reference to him. He is a native of New Haven county, Connecticut, the son of John and Mary Warren Whiting. His early training was under the direction of his mother, the father having died when he was a boy. His life tells how well the loving mother did her work.

Trained in a New England Academy.

Insurrection at home and in the common school enabled him, at the age of 13 to begin an academic course and at 17 he was a teacher, which calling he followed for five years when he resumed study in the academy. After that he studied medicine and surgery in the office of Dr. Vincent Holcomb, at Granville, Massachusetts and graduated at the Berkshire Medical College of that state, taking a second course at the Vermont Medical College and began practice at Wolcottville, Connecticut in 1850.

Two years later he moved to Brooklyn, New York. In 1854 he became a resident of Lee, Massachusetts, where he built up a fine practice and was secretary of the Berkshire District Medical society.

His Work in the War.

In 1860 Dr. Whiting married the talented widow of ex-Chief Justice Whiting, of this state, and became a resident of Janesville. Like so many of Wisconsin's prominent democrats, Dr. Whiting, the moment the war broke out, knew no party lines. When the 33d Wisconsin was organized Dr. Whiting was made its surgeon and it may be said that no regiment from Wisconsin ever had a more capable and faithful surgeon. He was surgeon-in-chief of the great hospital at Milliken's Bend, established by order of General Grant. It is said that that was one of the most complete and best managed hospitals in the Mississippi Valley. It often contained 4,000 wounded soldiers.

Served As Mayor of Natchez.

He was also surgeon-in-chief of the Military District of Natchez, and while holding that high position small-pox broke out. In addition to his duties as surgeon in chief, he was made mayor of the city, performing those duties three months. There were thousands of cases of small-pox in the district, but through the thorough administration of affairs, comparatively few deaths resulted and the disease was quickly checked. His arduous services and close application nearly undermined his health, but the care given him at home restored him so that he had been in active practice ever since.

Literary Talent a Family Trait.

Dr. Whiting has a wide acquaintance throughout the state; is known for his strict integrity, love of justice, liberality and many other excellent qualities. He is a member of Sargent Post, Janesville, and of the Loyal Legion; has been president of the state medical society, though he never has been a place seeker. If the National encampment elects Dr. J. B. Whiting its medical director, it will place in

that important office a man thoroughly equipped for an able performance of the duties. Dr. Whiting comes honestly by his fine literary tastes, both his father and mother having been particularly gifted in this respect. Wisconsin's delegation at Louisville will take special pride in urging his election to an office of very great importance in connection with the Grand Army of the Republic.

Ogden, Phallamont and Alice Director
Won at Stoughton Yesterday.

H. D. McKinney won two races at Stoughton yesterday, the closing day of the meeting. The track was very slow on account of the dust. In the 2:40 trot H. D. McKinney's 3-year-old Ogden Phallamont won the race in the three straight heats with Valencia second; Fairfield Boy third; and Luth fourth; time, 2:30, 2:30, 2:30. The 2:20 pacing race, the dispatches say was a hot one, but easily won by McKinney's Alice Director in straight heats, Harrison Reid second, Rahletta third, Cap. W fourth; time, 2:22, 2:22, 2:25.

Kate Phallamont distinguished herself at Cleveland yesterday, when, after finishing tenth in 2:12, fifth in 2:12, tenth in 2:12 and second in 2:12, she went right out and won the fifth and sixth heats in 2:12 and 2:13. Col. Kruse the favorite won the last heat in 2:12, while Bravado got the third and fourth, and Penelope had been drawn after winning the first and second. The race then went over until today. The Chicago Tribune comments on the race as follows: "Kate Phallamont cut loose and clipped the fifth heat in 2:12, a performance which gave rise to a suspicion she had not been out for the money when the slower miles were trotted. Because of the ease with which the Minneapolis mare gathered in the sixth heat her driver should be asked to explain why he lost the seventh. This race has a bad appearance, and will probably be carefully watched tomorrow. Kate Phallamont should certainly have won today unless she is the best counterfeiter that ever started in fast company."

TEACHERS LOOK FOR MORE PAY
Three of the High School Force Have Not
Accepted Their Positions.

Clerk Cunningham, of the school board, today notified Misses Carolyn Kimball, Roberta Holmes and Carrie Zeisinger that they must accept their reappointment as teachers at once or decline the same.

At the regular meeting of the school board held at the city clerk's office last evening, it was reported by Clerk Cunningham that the teachers mentioned, had not yet notified him of their acceptance. It was said that they were not satisfied with sixty dollars a month salary. Misses Holmes and Kimball claimed that they could go to Rockford on terms that meant more than one hundred dollars a year additional salary, but as the board did not seem to be inclined to raise the pay of any teacher, the clerk was notified to take the action above mentioned.

The building committee were instructed to see if some steps could not be taken to improve the ventilation of the basement closets at the old high school building. A number of bills were also allowed.

INCREASE IN CRIME IS SHOWN.
Municipal Court Clerk W. F. Williams
Makes Out The Monthly Statistics.

Crime seems to be on the increase, according to the figures made by Municipal Court Clerk W. F. Williams. During July, 1894, there were 32 arrests made and 24 convictions. Four arrests were for felonies. In July, '95, there were thirty-eight arrests made and twenty-three convictions, nine cases not yet having been tried. None of the arrests were for felonies.

DEALS IN ROCK COUNTY LEAF
J. H. Haviland, Frank S. Baines and E. M.
Calkins Doing Some Business.

Tobacco deals reported by the Leaf are 82 cases of '92 bought by J. H. Haviland & Son and 125 cases sold by the same firm; 100 cases of '92 bought by F. S. Baines and 50 cases of '92 sold by him, 25 cases of '93 bought by E. M. Calkins and several small lots picked up by A. N. Jones and J. A. Ryan.

A Noted Physician.
Dr. Frank H. Wray, who is located in Rockford, and who is to visit Janesville next Monday and each succeeding Monday for some time to come, is not only an eminent specialist, but is a skillful physician as well. His life until five years ago has been devoted to the general practice of medicine, the last eight years being spent in Denver. During his practice he developed a cure for rapture, that is more marvelous in its working, than the Keeley cure, because it never fails of a cure. Dr. Wray has a large number of physicians now using his remedy and after demonstrating in Janesville what can be done with it he will establish a permanent office in charge of some physician. People who are afflicted with rapture will be interested in reading his advertisement in another part of this issue.

Looks Are Not Deceiving
The amount of builders hardware shipped out of town almost daily by the Lowell Hardware Company makes it look as if business were not so very dull. The reputation of this firm is not confined to the immediate vicinity and is enlarging in its scope all the time.

Mr. A. A. Snyder, superintendent of the poor farm, Waukesha Co., Ia. says: "Last winter Mr. Robert Leach used two boxes of Dr. Witt's Witch Hazel on his leg. Had been under care of physicians for months without obtaining relief. C. D. Stevens.

Mrs. Mattland Is Dead.
Omaha, Neb., Aug. 2.—Augusta Mattland, who was shot at noon Tuesday in the Model steam laundry by Peter Volgreen, died at 1 o'clock yesterday. Volgreen has confessed that he conceived the crime in Minneapolis and came here last week determined to execute it if he could not induce the woman to abandon her husband and live with him. Failing in this, he shot her.

A Double Case of Skin.
A hunter near Petoskey, Mich., chased a bear cub up a tree. A moment later the old mother bear hove in sight roaring terrifically. The man shinned up the tree with alacrity only to find himself between a snarling cub and a growling bear. He yelled lustily for several hours until help arrived.

ECZEMA
From early childhood until I was grown my family spent a fortune trying to cure me of this disease. I visited Hot Springs and was treated by the best medical men, but was not benefited. When all things had failed I determined to try S.S.S. and in four months was entirely cured. The terrible eczema was gone, not a sign of it left. My general health built up, and I have never had any return of the disease. I have often recommended S.S.S. and have never known a failure to cure.

Narcoti-Cure

CURES THE TOBACCO HABIT IN 4 TO 10 DAYS OR MONEY REFUNDED.

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

DON'T BOTHER ABOUT CONGRESS

Nobody need worry over possible or probable lack of financial legislation in the Fifty-fourth congress is hardly in order. Our monetary system is in moderately satisfactory shape. The silver question is closed until Europe steps forward to ask for a re-opening, and the bank problem will "keep" for two or three years. It would be well to devise some satisfactory substitute for the bank currency which must soon disappear, but there is not the faintest chance that anything acceptable to the country will be devised by the coming congress. Both parties in that body, as in most of the congresses on the eve of presidential elections, will spend the greater part of their time maneuvering for positions in the campaign. Possibly the session will be short, but whether it is short or long, there is likely to be much less work in it than talk.

HOLMES A PHENOMENON.

The Holmes case calls for careful explanation by such criminologists as Professor Cesare Lombroso. Its fast unfolding developments tend to make it almost unique in the history of modern crime. The assassin Holmes seems more than a mere criminal imbued with the darkest of human passions; he emerges more clearly every day in the light of a fiend. When he first gave vent to his half-braggadocio confession of wickedness his utterances struck one as the melodramatic attempt of a lying boaster to enjoy a short reign of cheap notoriety. But with murder upon murder heaped against the door of his cell he seems to be the murderous instinct incarnate. If he would open his lips he could undoubtedly make clear a half-score of mysterious disappearances.

THE LAST STAND.

William Hope Harvey says that the present silver agitation is the "last stand of freemen in defense of their liberties." There you have it! The oracle has finally spoken its message. Not the latest, but the "last" effort of that spirit which drove Tarquin from Rome, and aimed the arrow of Tell; which charged with Cromwell and his Ironsides; which nerved the Three Hundred at Thermopylae, and armed the Ten Thousand at Marathon; which inspired the charter in the cabin of the Mayflower, and the Declaration of Independence by the Continental Congress. Truly, we're in a bad way!

A BLOW AT COMPANY STORES.

"Company stores" are dealt with in practical fashion by the coal miners' national union. The wages of 100,000 miners were raised to 69 cents a ton by the agreement signed yesterday, and a difference of five cents was made in favor of the operators who do not run stores.

This is the first time a differential has ever been granted against company stores, and it is expected that it will result in having them all abolished. An evidence of this came yesterday when W. P. Bend, of Chicago, offered to abolish his company store at Reisig, Pa., and agreed to loan the miners money enough operate it on a cooperative basis.

Three hundred Kentucky democrats one of them the man now running for governor, borrowed \$59,000 of the \$300,000 Dick Tate, the embezzling state treasurer was short, and their due bills are still in existence.

It strikes Editor Coon of the Edgerton Reporter that Commissioner Fricke's report reads too much like a plea of an insurance attorney to be entirely pleasing to people who have insurance to place.

Enough errors have come to light in Milwaukee's census to make a substantial difference in the totals. Most of the people who were overlooked,

however, will never be heard from. Milwaukeeans believe their population is 270,000 and say the government census will prove it.

Senator Mitchell comes back from Washington with the information that Mr. Cleveland "cannot have a third term." Senator Mitchell has no scoop on this particular piece of news.

It seems that Secretary Carlisle's assertion that he didn't care to be president was meant as a strictly confidential communication; also, to be taken in a Pickwickian sense.

Governor Upham means to put a northern Wisconsin man in Justice Orton's place if he has to wait until a new crop of lawyers grow up before he gets a man who will accept.

When Secretary Carlisle said that Mr. Cleveland would not willingly be a candidate for a third term, did he mean to imply that anybody was plotting to compel him so?

It is perfectly natural that the more praise Mr. Roosevelt receives from the lovers of law and order the more he will be hated by New York Democrats.

Did the governor of Texas ever read what the governor of Florida said about stopping a prize fight if he had to call out the militia to do it?

If Bowler will decide the payment of a salary to Mr. Cleveland and his cabinet of business wreckers to be constitutional, much will be forgiven.

It must be they didn't read the Lexow testimony out in Omaha, or they would never want more than one police force.

FIDELITY RUPTURE CURE!

— WAS ORIGINATED BY —

FRANK H. WRAY, M. D.

An Old and Experienced Physician,

And named by him the "Fidelity Method." as the cure was certain and sure in all cases. The treatment has now been in use over five years and upwards of 10,000 people have been cured. Some 400 reputable physicians scattered over the United States have made application and secured the exclusive rights to use this cure in their counties, paying Dr. Wray sums of money that have made him rich. His main office was at Cedar Rapids, Iowa, but a firm of resident physicians purchased the control of that place and the doctor has now transferred his permanent headquarters to Rockford, Ill., which is under his personal supervision. Dr. Wray has permanently cured more persons of Rupture, than any one hundred doctors combined, and those so affected, know by consulting him, they will not be experimented with.

DOCTOR WRAY WILL BE AT THE MYERS HOTEL, JANESVILLE, EVERY MONDAY.

HERNIA.

Hernia is generally known by the terms Rupture, Bruch or Breach. To those afflicted there is no necessity of giving a description; all they want to know is, "How can I be restored to a strong and healthy condition and be able to dispose of my truss or support, which are a constant source of annoyance and inconvenience?" and who can restore me?"

Those who are afflicted are never free from danger, for the hernia will come down at times, in spite of the best of trusses, and become strangulated. This is most always succeeded by an operation and death will follow in a few hours. And when once strangulated, unless reduced at once, an operation for the return of the contents must be made. This operation is both uncertain and dangerous and failure is very frequent. A hernia may and frequently does become strangulated while the patient is wearing a truss, either from an improperly fitted truss or from some slight slipping of a properly fitted truss, pinching the hernia and causing the contents of the sack to become strangulated.

FREQUENCY OF HERNIA.

About one in every ten persons is ruptured. No one is exempt—young and old, rich and poor, large and small, all classes and all people, professional or laymen, men, woman or children—even the nursing babe in its mother's arms—all are alike subject to the dreaded disease.

Owing to the great frequency of rupture medical men have for years as in cases of all diseases been trying to discover some cure and as the progressive medical have keeping pace with all other sciences, made wonderful discoveries and cures for the various diseases, so we have discovered a cure for hernia. Sir Spencer Wells says: "The relief of strangulated hernia is justly regarded as one of the triumphs of operative surgery. The surgeon saves the life of his patient without maiming or deforming any part of the body. But the surgeon who cures hernia radically with certainty and safety is a greater benefactor as he not only relieves large numbers of his fellow men from suffering, but he averts the danger of strangulation to which they are continually exposed, in a greater or less degree, through every period of life."

The old and dangerous surgical operation of cutting down and sewing up the rupture is dangerous and not effectual, and failures are more numerous than cures, and the modern surgeon will refuse to attempt to cure by that means. It is, therefore, natural for all to turn to the

RADICAL CURE WITHOUT KNIFE OR DANGER.

The cure was discovered by Dr. Frank H. Wray, of Cedar Rapids, Iowa, and now used by many of the leading surgeons and specialists throughout the country who, recognizing in it the only sure, safe and speedy cure, have abandoned all other means of treatment and daily cure many of the afflicted, and to Dr. Wray the world is indebted for the most valuable discovery of the ages.

TRUSSES.

Few indeed of the many articles placed on the market are of any value. Many are worthless and made only to sell, but a well fitting and well fitted truss is a source of ease and comfort. Many of the trusses worn are improperly fitted and give no relief whatever. The object of the truss is to properly hold the hernia, and not allow any part of it to protrude. But how many who wear them are cured? If a truss will cause an inflammatory action at the point of rupture a cure may be affected, but they are infinitesimal in number and uncertain in degree. Besides a truss worn for a long time will cause absorption of the parts and make a truss valueless. To do away with the truss forever and effect a radical cure is our one object and prevent such diseases from wearing trusses as impotency, varicocele, hydrocele, and all affections of the digestive and genito-urinary systems. Besides the truss is a source of torment and irritability of temper to most wearers during warm weather.

Now the FIDELITY RUPTURE CURE does away with all these.

THE CURE

is accomplished in from 30 to 60 days without loss of time, pain or inconvenience, as the patient attends to his ordinary duties at all times during the treatment. The ordinary case is cured in 30 days or less, but the larger openings in older people sometimes require longer time. The FIDELITY RUPTURE CURE has now been in use five years being used by many physicians. There

has not been a single accident or failure to cure every hernia that can be reduced and held in place during treatment. During that period over 8000 cases have been treated and permanently cured, enabling them to discard their trusses forever.

In localities where the FIDELITY METHOD is known it does not need any endorsement. It speaks for itself. Every patient commends it.

Every physician using it guarantees a cure, or else he does not receive any pay.

THE WORK IS DONE.

And easily done, without pain, inconvenience, loss of time. The truss discarded forever. See what Mrs. Nellie M. Barrett says:

Waterloo, Ia., Feb. 12, 1895—"I sustained a severe umbilical rupture by being thrown from my buggy several years ago. It was as large as a baby's head, and I was compelled to wear a truss continually. In December, 1894, I put my case in the hands of the Fidelity Rupture Cure. After four treatments, I am perfectly cured. Not one sign of rupture is apparent, and I cannot cause it to come down. I did not pay, nor was asked to pay, one dollar for treatment until I was satisfied I was cured. The cure was effected without pain, inconvenience or loss of time, and I take great pleasure in recommending this company.

Respectfully,

MRS. NELLIE M. BARRETT.

Norway, Benton Co., Iowa.

Fidelity Rupture Cure:

Dear Sirs:—Two years ago I ruptured myself and have taken five treatments, one week apart, from your company, and am now perfectly sound and doing all kinds of labor without my truss.

Yours gratefully,

EFFECTUALLY CLOSED

An Old Settler Who Has Something to Say.

Robert Ellis, a Well known Citizen, Cured of Rupture, and He Tells How it was Done—Commends the Fidelity Rupture Cure.

(Cedar Rapids Gazette.)

Every body hereabouts knows Robert Ellis, the hale old citizen who for many years has been engaged in farming and dairying in the suburbs of the city. His word is good everywhere, and all who know him will receive whatever he says as the truth, without question. He has for a month past been under the treatment of the Fidelity Rupture Cure of this city, and he has the following to say of his success, which indicates the character of the company and the worth of its treatment. Mr. Ellis says: "I came to Cedar Rapids in 1838, when there was but one house, and I am known to the citizens of this city and the county, being now the oldest settler living. I am 77 years old and have had a rupture since I was a boy, and during that period I have worn many varieties of trusses, none of which have helped or done any good toward a cure. One month ago I placed my case under the treatment

of the doctors managing the Fidelity Rupture Cure, and today I am well of my old affliction, it having been accomplished without pain or detention from business. I can heartily recommend the company, with its obliging and fully qualified physicians, to all who may be similarly afflicted, knowing they will be honestly treated, as the plan of "no pay until cured" is adopted by this company, showing they fully understand their business.

R. C. ELLIS.

Every case of rupture treated by the Fidelity method is guaranteed. The money for treatment is not paid until the cure is perfected. Then a "certificate of cure" is issued, which is a guarantee for the future. Remember, you pay when cured, not before.

Consultation entirely free. Call at office or write for booklet of testimonials and directory of doctors now using the cure. FRANK H. WRAY, M. D. Myers hotel every Monday.

ANOTHER CURE.

Good Work of the Fidelity Rupture Cure.

A Twelve-Year-Old Boy Permanently Cured of Rupture, After Two Weeks' Treatment—The Mother Tells the Story—She Cordially Commends the Cure.

Cedar Rapids Daily Gazette: Day after day the evidence of the splendid success of the Fidelity Rupture Cure accumulates and there can be no doubt of the permanency of the cures effected, for it has now been months since some of the most obstinate cases were pronounced cured, and yet there has not been a single instance where there has been a recurrence of the trouble. The Gazette has given many instances of the cases treated successfully, and has known of several where no mention has been made. One of the latest cases to come to the notice of this paper is that of the young son of Mrs. S. A. Butler, Master Earl Hanson. Mrs. Butler told the story this morning to a Gazette reporter, in which she said:

"My son, Earl Hanson, who is now 12 years old, has been ruptured ever since he was three weeks old. He has suffered much inconvenience, as it was considered a bad case. About two months ago I heard of the Fidelity Rupture Cure and I made them a call. My son was placed under treatment and is now entirely cured. The rupture has not shown itself since about two weeks after treatment was begun. He now lifts pails of water and does all kinds of work that a boy of his age usually does without any inconvenience. I think the treatment is all that others claimed for it and you may say through the Gazette that it is a pleasure for me to recommend it to others."

Cedar Rapids, Ia.

Frank H. Wray, M. D., began his Fidelity Rupture Cure in this city. From beginning to present it has been an unabated success—no failures, no disappointments.

W. A. HUBBARD, M. D.

Waterloo, Iowa, March 4, 1895.

Dear Sir: I desire to add my testimony to the hundreds of others who have been cured by the Fidelity method. I have worn a truss constantly for about 16 years and during all that time I have suffered continually and spent several hundred dollars in attempts to have the hernia cured.

After thoroughly investigating the Fidelity idea, I decided to make one more attempt to rid myself of the annoyance of carrying around a truss forever, and commenced your treatment Jan. 1st, of this year. After taking five "shots" I was pronounced cured and wore my truss forever—no more after Feb. 10th, until a few days ago. Now I am so skeptical that I had several physicians, who have no connection whatever with the Fidelity physicians, make a thorough examination, and all decided that there was no indication of any rupture.

I made a trip to Cedar Rapids last week for examination by Dr. Frank H. Wray, who is the "daddy" of the system and he also informed me that it would be useless to wear a truss, as there was no rupture, a new tissue having grown over the internal ring, and that it would require more of a strain to tear it open than it did in the first instance.

While in Cedar Rapids I also investigated Dr. Wray. Everybody in complimentary terms of the gentleman and his discovery. Reputable physicians are sending him patients because they are absolutely certain that he performs a radical cure. There are several prominent business men of Cedar Rapids who have been cured by the Fidelity method and have worn no truss for months. Sincerely yours,

W. H. HARTMAN,

Editor Waterloo Courier.

THE CHILD CURED.

Good Work of the Fidelity Rupture Cure.

The Child of August Peters Cured of Rupture After Two or Three Treatments—What Mr. Peters Says About it—Success of the Treatment.

(Cedar Rapids Daily Gazette.)

The Gazette has on several occasions referred to the effective cures of rupture made on old and young by the Fidelity rupture Cure, and the people are becoming well convinced that the treatment is a decided success. Several physicians in this vicinity have adopted the treatment and they report a success in every instance. One of the cases treated in this city is the child of Mr. and Mrs. August Peters, which has been entirely and permanently cured. Mr. Peters, who is a member of the firm of Peters & Brandt, painters and decorators, was seen this morning by a Gazette representative and when asked about the case of his child said:

"Yes, our child was ruptured, but when I called at the office of the Fidelity Rupture Cure, I did not have any faith that they could cure it, but after treatment the rupture never again showed. The child was given two or three treatments, and it is completely cured. I have to confess that I was mistaken when I thought they could not cure."

Many such instances could be given where the treatment has proven beneficial. The Fidelity Rupture Cure is a legitimate discovery in medicine and surgery and is destined to be generally adopted by physicians.

PERFECTLY CURED.

New Hampton, Iowa.

Fidelity Rupture Cure:

Dear Sirs: It affords me great pleasure in giving testimony to your "rupture cure." I have been ruptured for five years and have tried various treatments without avail, but after taking two of your treatments I am pleased to say that I am perfectly cured. Thanking you, I am,

Yours most truly,

CHAS. H. SCHROEDER.

Luzerne, Iowa, Jan. 10, 1895.

This is to certify that I have taken a course of the Fidelity Rupture Cure at Cedar Rapids, of which Dr. Wray is principal, with the result that I was permanently cured in the very short time of only three weeks. I can heartily recommend said company to all afflicted likewise.

REV. A. J. STURT.

What doctors say of Dr. Wray and his discovery.

The following is from Dr. Frank McClelland, State Medical Examiner of State Asylums:

To Whom It May Concern: Having known Dr. Wray during his residence in Cedar Rapids and having watched with interest his success in the cure of rupture, and believing him to be an honorable man, who will do what he promises, I do not hesitate to commend him to the kind consideration and confidence of the citizens of Rockford, in which he now locates.

F. MCLELLAND, M. D.,

Cedar Rapids, Ia.

Reading, Pa., Nov. 19, 1895.

Fidelity Rupture Cure:

Gentlemen:—During the month of July, 1891, while looking through the Medical Summary of Philadelphia I saw your card, and my constant desire to find something new and superior for the relief of suffering humanity prompted me to inquire at once. In August I purchased the exclusive right of the treatment for the counties of Montgomery, Berks, Lebanon, Lancaster and Dauphin, Pennsylvania. I advertised in the dailies, receiving responses at once, and commenced to treat patients August 14. The inquiries by mail and in person were a constant stream from the start and the results are indeed marvelous. Have treated from babe to sire, men and women, with like results and there is no such thing as fail if the directions are strictly adhered to. The effect is immediate and the patient feels a decided improvement from the first treatment. It gives internal strength and confidence and after three or four treatments the parts are firmly adherent and the truss is ready to be laid aside and the patient, as many of mine have said, "feels like jumping over the moon." I have entire confidence in the Fidelity Method, as being most effective and yet harmless, and would earnestly urge other doctors to join our band.

COULDN'T GET CASH TO BUY SNAKE FOOD

WINTERMUTE BROTHERS' CIRCUS IN HARD LUCK.

Had Been Losing Money All the Season and Decided To Disband Here and Go Into Their Winter Quarters at Hebron—Wagons Got Scattered in the Night.

Wintermute Brother's circus wagons came straggling into Janesville this morning. The cages were heavily laden with beasts and the drivers were quite as heavily laden with cars.

The whole outfit was "broke." "We didn't take in money enough at Orfordville last night, to buy feed for the monkeys and snakes" explained one of the proprietors who was guiding a dejected looking white team as he whistled "Home Sweet Home" in a particularly plaintive key. "We are going into winter quarters now for there isn't a dollar in sight. Our home station is Hebron, this state, and we are going to get there just as quick as the Lord will let us."

And he told a true tale. Wintermute Brothers are well known in the show business which they have followed for ten years. They have always had the reputation of taking out one of the best shows on the road, and this year was no exception to the rule. They spent money liberally and had good "people" and a good manager, but somehow the money did not come in.

Played a Losing Game.

The circus left Hebron on May 4 for its annual trip which was to last until cold weather in the north and then take a southern turn. At each town things went hard and bad luck came apace. Hardly a performance was given where any money was made, but the managers were not "spring chickens" and would not show the white feather. At each new stand they had hopes of retrieving their failing resources but each time they were disappointed while the horses, animals and actors had to be fed regardless. Finally the managers got tired of reaching down in their pockets and drawing on the reserve fund and at Orfordville last night the last straw descended and broke the camel's back, so to speak. Few people patronized them and the cash taken in would not cover the running expenses. Then the word was passed round that the jig was up and the show would abandon the field. When the tents were packed up for the last time early this morning, the drivers were given orders to strike out for Hebron, as the balance of the route would be abandoned for the season.

Show Disbanded Here.

One by one the wagons picked up their respective loads and pulled out of the village made famous by its Ellen Shafer. One of the first to leave was the green wagon, with two bears in it and John Wintermute, one of the owners, on the seat. When Mr. Wintermute reached Janesville at 8:30 this morning he failed to find the balance of the outfit. He thought that he would be the first one to reach the Bower City and when the others showed up, they would hold a council of war, pay off the performers, and quit the business. Inquiries brought out the fact that the band wagon had made better time than the proprietor's team, had even, and had gone through earlier in the day. Mr. Wintermute drove up and down the street a dozen times, waiting for the others, and finally the closing arrangements were made and the wagons pulled out for home via Whitewater.

The show consisted of fifteen wagons and twenty-five people and they had been giving a twenty-five cent show.

"This is the worst season I have seen in my ten years' experience" Mr. Wintermute said, "and we have lost money from the very start. No circus has made a cent this season. The people refuse to 'let go' of their money, so I just decided to lay up until next season when times will probably be better."

Closing Out Sale.

A NEW ENGLISH PARTY.

Liberal Party Threatened with a Third Movement.

Not since the chartist agitation collapsed nearly fifty years ago, has the Liberal party in England been threatened with a third-party movement which has caused the whips of the liberal party anything like the uneasiness they are now feeling in connection with the independent labor party. This organization has now nineteen candidates in the field at work, in view of the dissolution, and it threatens that every one of them shall go to the poll. It is led by Keir Hardie, already in the House of Commons, as the representative of one of the outlying working-class constituencies of London. The new party holds that the English working classes must look to themselves for a solution of the problems in which labor is interested, and to this end its speakers, wherever they can get a hearing, urge the working classes to put themselves outside both the existing political parties, and to aim at holding the balance of power in the constituencies and in the House of Commons. As a national organization the independent labor party has now been in existence for about three years. Summed up briefly, the new party is in politics for national manhood and womanhood suffrage, payment of members of parliament and of all members of public bodies, and the general democratization of the whole system of municipal and national government. It also demands a legal eight-hour day, the compulsory abolition of overtime and piece work, the prohibition of the employment of children under 14 years of age, provision outside the workhouses for the sick, disabled, and aged out of the taxes on unearned incomes, state pensions for all over 50 years of age, fee and unsectarian education, primary, secondary, and university, remunerative work for the unemployed, and the substitution of arbitration for war. These are the planks of the platform upon which the independent labor party candidates will stand at the general election. The nineteen candidates who are now in the field are all assigned to industrial constituencies in which but for their presence liberal and radical candidates would have good chances of election. Many of the seats to be contested by the party, as in the case of John Morley's at Newcastle, have long been held by Liberals, whose return would otherwise be as certain as anything can be in English politics. The Liberal party has now given up any idea of compromise with the independent labor men. Their only hope is that the majority of the candidates will not be able to find the sum of £200 or £300 which it costs to contest a parliamentary constituency. From any point of view the new party introduces a great element of uncertainty into the approaching election.

BIG VESSELS FOR THE LAKES.

They Will, Ere Long, Do the Great Bulk of the Carrying Trade.

Plans already formed settle the question whether lake steamships 400 feet long or upward, with a capacity of carrying 6,000 tons of freight at a load, will be common after the opening of the channels twenty feet deep through all the shallows between Duluth and Chicago, and the ports of Lake Erie. There is no longer a doubt that such monster vessels will rapidly multiply within the next few years, and they are certain to do a great part of the carrying trade of the lakes, perhaps most of it, before the end of the century. The steamships already contracted for and those which are certain to be built before next spring will undoubtedly so far surpass all vessels now in use in ability to make money at low rates for freight that other vessel owners will be forced to follow the pioneers in this latest step forward in the construction of splendid lake carriers. Even an over-supply of tonnage such as is very likely to be the result, will not prevent the work of replacing small craft with steamers of the largest size from going on steadily. In one sense it will hasten the change, says Cleveland Leader. Only the biggest vessels can make money in such seasons of general over-competition for cargoes, and in order to continue the business the owners of old boats must let them go and put in commission steamships equal to any on the great lakes.

Climbing Mont Blanc.

It is an expensive as well as a very tiresome undertaking to ascend Mont Blanc. It costs at least \$50 per person, for by the law of the Commune of Chamouni each stranger is obliged to have two guides and a porter. So far as the danger is concerned, it is now reduced to a minimum, but almost every year the mountain claims a victim. Bad weather is the chief thing feared by the guides, and so swiftly does it come that a cloudless sky may in fifteen minutes turn to a blinding snow-storm which beats you to the ground. Thus it was that some years ago a party of eleven persons perished. Five were found frozen stiff in the snow; the other six still lie buried in the Glacier des Boissons. Forty years is the time allowed for the glacier to yield them up in the valley below.

Eat and Be Happy!

Nobody can do this who has dyspepsia. Even a light meal, eaten with relish, inflicts more or less torture upon the wretched victim of indigestion. But why allow one's self to be thus victimized when success in the shape of Hostetter's Stomach Bitters can be summoned? If you are going to any locality—a remote country farm house, or new settlement, for instance, where it is not readily procurable, buy yourself in advance with an adequate supply. An undigested meal is every apt to produce dyspepsia, so is brackish water aboard ship and the eating of acid fruits. Forestall further encroachment of the complaint with this superior, non-alcoholic, rectifying and preventive. Heartburn, sour eructations, biliousness, constipation, nervous debility, and kidney trouble promptly succumb to the onsets of this invigorating and restorative of vigor.

BASE BALL IN THE COUNTRY

The Milton team "got it in the neck" from Evansville Thursday afternoon. Ricz went into the box out of condition, and in the first two innings the visitors scored thirteen runs. He retired in favor of Aspinwall, who held the hard hitters of Evansville down to six runs in the remaining seven innings. Milton was saved from a shut-out by scoring one in the first. The Evansville team put up a first class article of ball and their team work is the best ever seen here, thanks to the skillful coaching of "Father Broughton." They are gentlemen as well as ball players and conduct themselves in such a manner as to reflect credit on themselves and the town which they represent. We regret that the circumstances will prevent them from appearing here again and can assure them that the victory which they won has not lessened the number of their admirers here. The home team did good work in fielding but did not have their batting clothes on.
